

Transforming Banking with AI-powered Platforms and Data-driven Intelligence

TechWish is a global technology solutions and services company that helps banks, credit unions, lenders, and capital market firms modernize customer experiences, payment operations, and risk management through solutions across AI, Data, Cloud, and Intelligent Automation.

Our experience includes modernizing core banking and payment ecosystems, implementing AI-driven fraud monitoring and compliance frameworks, and integrating intelligence across customer, transaction, lending, and operational platforms.

01

Solutions to Enable Modern Payments, Risk and Customer Operations

▶ AI Ops for Fraud & Financial Crime Monitoring

We provide proactive monitoring, anomaly detection, and fraud intelligence across transactions, payment channels, and banking operations.

▶ Real-Time Payments & Payment Intelligence

We enable secure, real-time payment processing with integrated monitoring, exception management, and payment ecosystem connectivity.

▶ Digital Onboarding & Identity Intelligence

We streamline customer onboarding through automated KYC, identity verification, and document processing workflows.

▶ Hyper-Personalized Banking

We help banks deliver tailored recommendations, engagement strategies, and customer experiences using AI-driven insights.

▶ Intelligent Lending & Credit Decisioning

We automate underwriting, credit assessment, and loan processing to improve speed, consistency, and customer satisfaction.

▶ Risk & Compliance Automation

We implement intelligent compliance frameworks that support AML, KYC, BSA, OFAC screening, regulatory reporting, and governance workflows.

▶ Customer 360 Data Platform

We design Customer 360 platforms, powered by ATLAS, that unify customer, transaction, and operational data into a trusted, enterprise-wide data ecosystem.

02

Comprehensive Coverage Across BFSI

▶ Retail & Commercial Banking

Omnichannel solutions to enhance customer experience and retention.

▶ Credit Unions

Custom solutions that streamline operations and boost community connections.

▶ Capital Markets

Agile AI solutions to optimize operations and mitigate risks.

▶ Consumer Lending

Streamline loan origination and approval for better customer satisfaction.
