

# From Booking to Destination, Transform Every Travel Experience

TechWish is a global technology solutions and services company that helps airlines, travel agencies, and hotels harness the power of digital transformation.

TechWish streamlines operations, enhances booking systems, and provides data-driven insights, empowering the travel ecosystem to take leaps ahead of competition with differentiated experiences.

01

## Powering the Future of Travel & Tourism With Intelligent Technology

- ▶ **Legacy Modernization & Cloud Transformation**  
Modernize booking, reservation, and operational platforms for greater agility.
- ▶ **Guest & Customer Experience**  
Enhance the entire customer journey with omnichannel solutions and automation-driven support.
- ▶ **Travel System Modernization**  
Transform booking engines, loyalty platforms, and partner integrations to reduce drop-offs and increase repeat bookings.
- ▶ **Enterprise Application Services**  
Build and integrate business-critical applications that streamline operations and improve service delivery.
- ▶ **Data, BI & Analytics**  
Turn traveler and operational data into actionable insights for revenue growth and informed decision-making.
- ▶ **AI & Intelligent Automation**  
From chatbots to predictive pricing, harness AI to automate high-volume tasks and anticipate traveler needs.

02

## Our Focus Areas

- 01 **Airlines & Aviation**  
Optimize flight operations, passenger experiences, loyalty programs, and revenue management.
- 02 **Travel Agencies & Tour Operators**  
Enhance booking experiences, automate workflows, and improve customer engagement.
- 03 **Hotels & Hospitality**  
Deliver personalized guest experiences while improving operational efficiency.
- 04 **Online Travel Agencies (OTAs)**  
Increase booking conversions, customer retention, and digital engagement.

## WHY TECHWISH

- ▶ **Booking & Distribution Ecosystem Expertise**  
Integrating booking engines, CRS/PMS platforms, GDSs, OTAs, loyalty systems, and payment networks.
- ▶ **AI-Powered Traveler Experience Engineering**  
Applying AI and automation to personalize journeys, optimize recommendations, and enhance customer engagement.
- ▶ **Security, Compliance & Data Governance**  
Building secure solutions aligned with PCI DSS, GDPR, and enterprise data governance standards.
